What our clients are saying

“

Lessons have helped me track my progress and learn the science and history behind string instruments and music theory. Lessons have also helped keep me accountable and motivated to keep learning. I appreciate that Christina is incredibly understanding and patient, yet continues to challenge me.

- Meghan

”

“

Dynamic Music offers a kind and supportive learning environment which is perfect for our beginning elementary-aged learners! After making big strides on piano, they have each added an additional lesson (violin and voice). We are very happy with this studio and know it will provide engaging music education for our kids throughout their journey.

- Ben

”

Educating, Empowering, and Emboldening Musicians

“

Over the past 2 1/2 years at Dynamic Music Studios, under the guidance and coaching of Dr. Jessica Saunders, our son has strengthened his vocal technique, expanded his range and experienced tremendous growth. Dr. J creates an environment that is both supportive and challenging. We are grateful for the mentorship and care that has helped him become a stronger performer and a more confident young adult. We couldn't recommend this studio more highly!

- Shane
